Guarantee

Examsoon provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!.

Features

1. Comprehensive questions with complete details
2. Instant Downloadable in PDF form.
3. Verified Answers Researched by Industry Experts
4. Questions accompanied by exhibits
5. Drag and Drop questions as experienced in the Actual Exams.
6. These questions and answers are backed by our GUARANTEE.
7. Questions updated on regular basis.
8. Like actual certification exams our product is in multiple-choice questions (MCQs).

1. After an initial EdgeSight Agent installation, the administrator must _____. (Choose the correct phrase to complete the sentence.)

- A. backup the EdgeSight database
- B. restart the Citrix Licensing service
- C. reboot the device onto which the EdgeSight Agent is installed
- D. use the Citrix EdgeSight Post-Installation Setup Wizard to perform initial configurations

Answer: C

2. An administrator needs to configure the agent to look for new alerts and/or new worker schedules more than once a day.

Which worker configuration does the administrator need to configure to meet the requirements of the scenario?

- A. Asset History
- B. Configuration Check
- C. Fault Report Cleanup
- D. Database Maintenance

Answer: B

3. An administrator is creating a new user account which Reporting Services will use to connect to the Report Server Database.

Which two steps should the administrator complete when creating the new user account? (Choose two.)

- A. Add the user account to a defined group.
- B. Define security parameters for the user account.
- C. Set a non-expiring password for the user account.
- D. Grant the user account database access privileges.

Answer: CD

4. Scenario: Following miscommunication during a rollout of new hard drives and memory, some devices in the environment were not upgraded as planned. The IT Manager asked the administrator to identify the devices that were upgraded.

Which type of report would the administrator use to obtain the necessary information?

- A. Remote
- B. Asset Change
- C. Memory Upgrade
- D. System Comparison

Answer: B

5. Scenario: The level two help desk forwards a call to the administrator to help a user who is currently experiencing difficulties accessing data from an application. The response times seem slow. The administrator decides to collect real-time information to diagnose the issue.

Which report should the administrator use?

- A. Alerts
- B. System
- C. Summary
- D. Processes

Answer: D

6. Scenario: An administrator is designing a proof of concept (POC) for an EdgeSight 4.5 implementation. The company will allocate only the minimum number of servers necessary for the POC. The administrator has obtained license keys for the necessary software and wants to get the lab hardware operational as quickly as possible.

What are the minimum number of EdgeSight servers needed for the project?

- A. One
- B. Two
- C. Four
- D. Three

Answer: A

7. Scenario: A company recently purchased Citrix Edgsight 4.5 and plans to use a production Microsoft SQL 2000 Server for the EdgeSight 4.5 database. The administrator wants to install all other EdgeSight

components onto a single server.

Which two components can the administrator install on the server separate from the Microsoft SQL 2000 database server? (Choose two.)

- A. Citrix License Server
- B. Citrix EdgeSight Agent
- C. Citrix EdgeSight Server Console
- D. Citrix EdgeSight Agent Deployment Server

Answer: AC

8. What does an administrator need to do in order to enable secure communications from EdgeSight Agents to server?

- A. Select to enable SSL Support.
- B. Select to disable SSL Support.
- C. Install and configure third-party VPN.
- D. Turn on the firewall on the agent device.

Answer: A

9. Scenario: A company currently has EdgeSight 4.5 deployed with a dual-server configuration. One server hosts the Microsoft SQL database, the other is a web server hosting the remaining server-side components. In an effort to improve performance, the administrator decided to create a tri-server deployment model.

Which two components can the administrator move onto the third server? (Choose two.)

- A. Citrix License Server
- B. Citrix EdgeSight Server Console
- C. Microsoft Message Queuing (MSMQ)
- D. Microsoft SQL Server Reporting Services

Answer: AD

10. Scenario: An administrator enabled SSL support for an EdgeSight Server. Now the certificate prevents remote scripts from running and remote pages from displaying.

What does the administrator need to do to resolve the issue described in the scenario?

- A. Enable SSL support on the agent.
- B. Turn off SSL support on the server.
- C. Put in an exception for port 9035 at the firewall.
- D. Purchase another SSL certificate, as this one is corrupt.

Answer: A

11. Which Microsoft application does an administrator need to install on a device that is being used to view real-time remote reports for EdgeSight?

- A. Excel
- B. Word
- C. Notepad
- D. WordPad

Answer: A

12. An administrator for EdgeSight needs to use Microsoft Excel to view reports _____. (Choose the correct phrase to complete the sentence.)

- A. of any type
- B. locally on the agent
- C. locally on the server
- D. using real time remote function

Answer: D

13. What is minimally required for the web server component of the EdgeSight Server?

- A. Microsoft Message Queuing
- B. Microsoft SQL Server Reporting Services 2000 Service Pack 1
- C. Internet Information Services (IIS) 5.0 for Windows Server 2003
- D. Microsoft SQL Server Service Pack 4 Standard Edition or greater

Answer: A

14. Which three configurations does the web server component of the EdgeSight Server require? (Choose three.)

- A. ASP.NET allowed in IIS
- B. Network COM+ access enabled
- C. IIS_WPG users active and enabled
- D. Active Server Pages (ASP) enabled
- E. Microsoft SQL with mixed-mode authentication

Answer: ABC

15. What does the spectuser account access?

- A. Microsoft SQL Server
- B. Citrix EdgeSight Agent
- C. Citrix EdgeSight Server
- D. Microsoft SQL database

Answer: D

16. The spectuser account is a _____. (Choose the correct phrase to complete the sentence.)

- A. Citrix EdgeSight Server user account that is used to communicate with the EdgeSight Agents
- B. Microsoft SQL account that the EdgeSight Server uses to connect to its Microsoft SQL database
- C. Microsoft SQL account that the EdgeSight Agent uses to connect to its Microsoft Access database
- D. Citrix EdgeSight Agent user account that is used to communicate with Microsoft SQL Server Reporting Services

Answer: B

17. An administrator just installed an EdgeSight Server in the environment.

Which two post-installation configuration items need to be defined after installing EdgeSight in the environment? (Choose two.)

- A. Company
- B. Time Zone
- C. Department

D. SNMP Trap Handler

Answer: AB

18. When installing Citrix EdgeSight for Presentation Server Agents, which two items must be specified to ensure that the EdgeSight Agent will be able to report to the EdgeSight Server without any errors? (Choose two.)

A. Certificate authorities

B. Agent/Server communication port

C. SNMP port the EdgeSight Server is using

D. Company name exactly as it appears in the EdgeSight Console

Answer: BD

19. After installing an EdgeSight Server, which two things must an administrator create to complete the appropriate post-installation configurations? (Choose two.)

A. Company

B. Department

C. Superuser account

D. Spectuser account

Answer: AC

20. Scenario: An administrator is going through the Post-Installation Wizard for an EdgeSight Server. The administrator decides that the EdgeSight Agent will be deployed to user devices in the company.

Which option should the administrator select for the Server Mode to meet the needs of the scenario?

A. EndPoint Support Only

B. Server and EndPoint Support

C. Presentation Server Support Only

D. Presentation Server and EndPoint Support

Answer: A
