### Guarantee

Examsoon provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!.

### Features

1. Comprehensive questions with complete details
2. Instant Downloadable in PDF form.
3. Verified Answers Researched by Industry Experts
4. Questions accompanied by exhibits
5. Drag and Drop questions as experienced in the Actual Exams.
6. These questions and answers are backed by our GUARANTEE.
7. Questions updated on regular basis.
8. Like actual certification exams our product is in multiple-choice questions (MCQs).

1. Which of the following techniques can be used to improve performance of PowerCubes in Cognos 8 BI?
- A. Run the cube through the pcoptimizer utility that is shipped with Cognos 8 BI.
  - B. Enable the Allow dynamic usage of dimension information governor in Framework Manager.
  - C. Edit the EnablePCOptimizer entry in the Cognos.ini file so that its value=1, and then rebuild the cube.
  - D. Ensure that the Pass-through SQL setting is enabled on all regular dimensions in the Framework Manager model.

**Answer: A**

2. Which of the following utilities can be used to update PowerCubes without affecting users?
- A. pcaccel.exe
  - B. CubeSwap.bat
  - C. RSUpgrade.bat
  - D. BMTScriptPlayer.exe

**Answer: B**

3. What is true of a Framework Manager model of an operational database lacking a time dimension?
- A. Virtual star schema models require a time dimension for multi-fact queries.
  - B. Report authors cannot create multi-fact, time-based queries.
  - C. Time-based rollups for multi-fact queries may be difficult to handle.
  - D. Report authors cannot create multi-fact, time-based queries unless using a union.

**Answer: C**

4. What technique can Framework Manager modelers use to implement a time dimension for models that lack a time dimension?
- A. Create relationships from date fields in one dimension to date fields in another dimension.
  - B. Use parameter maps to map date values in one query subject to date values in another query subject.
  - C. Use the Time Dimension wizard to generate a time dimension and create the appropriate relationships.
  - D. Identify a time dimension table source, import into the model and create relationships to fact query subjects.

**Answer: D**

5. In Framework Manager, when using star schema groupings in the business view, conformed dimensions can be identified by which one of the following?

- A. Using a different query subject icon for display in the studios.
- B. Viewing the properties of the query subjects in Report Studio.
- C. Viewing the properties of the query subjects in Framework Manager.
- D. Using the same name for the dimension in each star schema grouping.

**Answer: D**

6. If authors want to perform OLAP-style queries directly against a relational database, which Framework Manager modeling technique will a modeler use?

- A. Create regular and measure dimensions and set scope.
- B. Create shortcuts to regular dimensions and fact query subjects.
- C. Create star schema groupings for dimension and fact query subjects.
- D. Create relationships between regular dimensions and measure dimensions.

**Answer: A**

7. Which of the following is correct regarding the Cognos 8 security environment?

- A. Cognos 8 must be configured to use only one authentication provider at a time
- B. To perform authentication of users, a connection to the Cognos namespace must be defined
- C. In Framework Manager, object security is implemented by defining access to objects for users, groups and roles defined in the authentication providers
- D. In Framework Manager, object security is implemented by defining access to objects for groups and roles (of which users are members), not individual users

**Answer: C**

8. The groups and roles defined in the Cognos namespace can be used to assign access rights to which of the following Framework Manager objects?

- A. Query items.
- B. Data sources.

- C. Relationships.
- D. Parameter maps.

**Answer: A**

9. Which of the following statements is correct regarding the implementation of object security in Framework Manager?

- A. Groups and roles can be created in the Cognos namespace when specifying access to objects.
- B. Even when object security is applied, if anonymous access is configured, every object in a Framework Manager project is visible to everyone.
- C. A user belongs to two groups. One of the groups is denied access to an object. The other group is granted access to the object. The result is that user has access to the object.
- D. Granting access to an object for one user, group or role (except the Everyone and All Authenticated Users groups), implicitly denies access to that object for all other users, groups or roles.

**Answer: D**

10. In Report Studio, when would an author use the Condition Explorer?

- A. To add a page set to a report.
- B. To set the number of rows on a page.
- C. To create a report title that changes according to a locale.
- D. To navigate between report pages and prompt pages.

**Answer: C**

11. In Report Studio, based on the above crosstab, which relationship is true?

		<#Sales territory#>		<#Sales territory#>	
		<#Quantity#>	<#Revenue#>	<#Quantity#>	<#Revenue#>
<#Order method#>	<#Retailer type#>	<#1234#>	<#1234#>	<#1234#>	<#1234#>
	<#Retailer type#>	<#1234#>	<#1234#>	<#1234#>	<#1234#>
<#Order method#>	<#Retailer type#>	<#1234#>	<#1234#>	<#1234#>	<#1234#>
	<#Retailer type#>	<#1234#>	<#1234#>	<#1234#>	<#1234#>

- A. Quantity and Revenue are peers.
- B. Order method is a peer of Retailer type.

- C. Sales territory is a peer of Order method.
- D. Sales territory is a peer of Quantity and Revenue.

**Answer: A**

12. In Report Studio, a modeler wants to create a calculation using items that exist in the current report. On which tab are these items available?

- A. Source tab
- B. Functions tab
- C. Data Items tab
- D. Parameters tab

**Answer: C**

13. In Report Studio, in which situation is it most appropriate to use a Repeater Table?

- A. Analyze financial data.
- B. Create a mailing list report.
- C. Compare values between and across items.
- D. Clarify information not easily seen in a crosstab or list.

**Answer: B**

14. In Report Studio, which item could be found in a package containing either relationally modeled data or dimensionally modeled relational data?

- A. Level
- B. Hierarchy
- C. Dimension
- D. Query item

**Answer: D**

15. In Report Studio, where does a modeler enable or disable drill behavior on multi-dimensional data?

- A. On the Toolbar.
- B. From the Data menu.

- C. In the Properties pane.
- D. In the Insertable Objects pane.

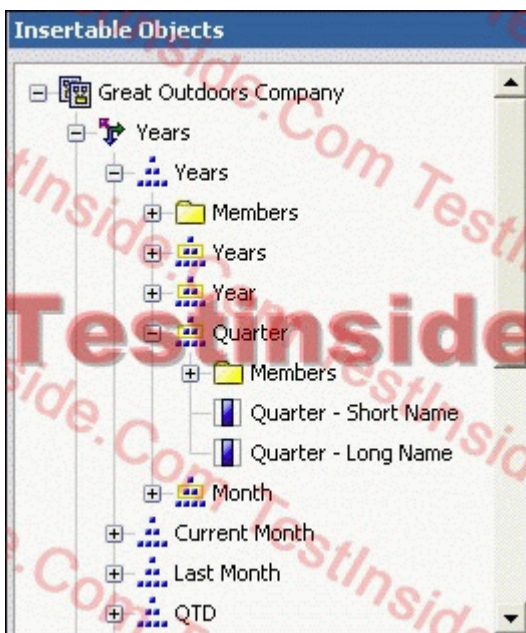

**Answer: B**

16. In Report Studio, if an author wants to add Revenue to a report, where can the author find Revenue if the package is based on an OLAP data source?

- A. In a level.
- B. In a hierarchy.
- C. In a query subject.
- D. In a measures dimension.

**Answer: D**

17. Based on the following graphic from Report Studio, what items can be accessed in the Members folder under Quarter?

- A. All members of the Years hierarchy.
- B. Only children of the Quarter members.
- C. Only the members in the Quarter level.
- D. All Quarter members and their children.

**Answer: D**

18. In Report Studio, why would an author set the scope when creating a filter?

- A. To specify which grouped data item to filter.
- B. To apply the filter after the data is aggregated.
- C. To make the filter required, optional or disabled.
- D. To apply the filter before the data is aggregated.

**Answer: A**

19. The following report was created in Report Studio using a relational package and shows revenue by sales rep, city, and country. What will the report show if the author creates a detail filter for Revenue>500,000 and applies the filter BEFORE auto aggregation?

Country	City	Staff name	Revenue
France	Lyon	Daniel Turpin	\$722,373.84
		Florence Martin	\$464,130.04
		Frédéric Samson	\$1,030,298.52
	<b>Lyon</b>		<b>\$2,216,802.40</b>
	Paris	Élizabeth Michel	\$1,131,160.54
		Émile Clermont	\$318,099.00
		Étienne Jauvin	\$784,025.00
	<b>Paris</b>		<b>\$2,233,284.54</b>
	<b>France</b>		<b>\$4,450,086.94</b>
Germany	Hamburg	Elsbeth Wiesinger	\$1,268,132.22
		Gunter Erler	\$1,573,979.96
	<b>Hamburg</b>		<b>\$2,842,112.18</b>
	München	Björn Winkler	\$4,166,578.68
	<b>München</b>		<b>\$4,166,578.68</b>
<b>Germany</b>		<b>\$7,008,690.86</b>	

- A. Only reps who generated total revenue greater than 500,000.
- B. Only cities that generated total revenue greater than 500,000.
- C. Only countries that generated total revenue greater than 500,000.
- D. Only reps who had individual sales transactions of greater than 500,000.

**Answer: D**

20. In Report Studio, an author wants the cities listed in the City prompt to be based on the Country selected in the Country prompt. What property must the author define to accomplish this?

- A. Range
- B. Multi-Select

- C. Cascade source
- D. Default Selections

**Answer: C**

Examsoon.com was founded in 2006. The safer,easier way to help you pass any IT Certification exams . We provide high quality IT Certification exams practice questions and answers(Q&A). Especially [Adobe](#), [Apple](#), [Citrix](#), [Comptia](#), [EMC](#), [HP](#), [Juniper](#), [LPI](#), [Nortel](#), [Oracle](#), [SUN](#), [Vmware](#) and so on. And help you pass any IT Certification exams at the first try.

we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!
