Features

1. Comprehensive questions with complete details
2. Instant Downloadable in PDF form.
3. Verified Answers Researched by Industry Experts
4. Questions accompanied by exhibits
5. Drag and Drop questions as experienced in the Actual Exams.
6. These questions and answers are backed by our GUARANTEE.
7. Questions updated on regular basis.
8. Like actual certification exams our product is in multiple-choice questions (MCQs).

1. You must determine if a customer's RADIUS server will support authentication of switch management users for ProCurve switches. Which authentication method is required?

- A. PEAP
- B. PAP/SPAP
- C. MS-CHAP/MS-CHAPv2
- D. CHAP

Answer: B

2. You connect an IP telephone that supports LLDP-MED to a port on a ProCurve Switch 5406zl. The port is a member of a voice VLAN and also requires 802.1X authentication. How will LLDP-MED and 802.1X interact?

- A. The switch will exempt the phone from the 802.1X requirement after confirming its LLDP-MED information.
- B. The switch will submit the phone's authentication credentials to a RADIUS server after the devices exchange LLDP-MED information.
- C. The switch will permit LLDP-MED communication with the phone after authentication is complete.
- D. The switch will use information from the phone's first LLDP-MED frame to submit its authentication credentials.

Answer: C

3. Which command, entered at the CLI of a ProCurve switch, saves the switch's running configuration to its startup configuration?

- A. write config
- B. save running-config
- C. save startup-config
- D. write memory
- E. copy running-config startup-config

Answer: D

4. What is the effect of the following command entered at the CLI of a ProCurve Switch 5406zl?

```
5406zl(vlan-100)#interface a1
```

- A. The CLI displays the status of port A1.
- B. Port A1 becomes a tagged member of VLAN 100.

- C. The CLI enters the configuration context for port A1.
- D. Port A1 is enabled.

Answer: C

5. The front-panel security settings on a ProCurve switch are at default. How can you gain access to the CLI of the switch if the manager and operator passwords have been lost?

- A. by pressing the Reset button on the switch's front panel and holding it down until the switch restarts
- B. by pressing the Clear button on the switch's front panel and holding it down for three seconds or more
- C. by power cycling the switch and accessing the ROM console to clear passwords at the manager prompt
- D. by resetting the passwords using the Secure Access Wizard in ProCurve Manager Plus

Answer: B

6. What is the effect of the following command entered at the CLI of a ProCurve switch?

ProCurve Switch> enable

- A. Configuration changes are saved.
- B. The CLI displays an authentication prompt.
- C. The privilege level moves from Operator to Manager.
- D. All switch ports are enabled.

Answer: C

7. You have defined VLAN 100 and VLAN 101 on a ProCurve Switch 5406zl, and added two ports to each VLAN as untagged members. All other switch settings are at defaults. Which additional steps are necessary to enable communications between hosts in the two VLANs? (Select two.)

- A. Add all four ports to both VLANs.
- B. Define an IP address for each VLAN.
- C. Enable IP routing globally.
- D. Configure static routes to both VLANs.
- E. Remove all four ports from the Default VLAN.

Answer: BC

8. In ProCurve Manager Plus, which user type can configure and manage network devices but cannot add, delete, or modify user accounts?

- A. operator
- B. manager

- C. viewer
- D. administrator

Answer: A

9. Which ProCurve Manager Plus wizard simplifies the task of changing the SNMP server IP address parameter on 50 ProCurve 5406zl Switches?

- A. Configuration Wizard
- B. IP Networking Wizard
- C. Network Services Wizard
- D. CLI Wizard
- E. Switch Update Wizard

Answer: D

10. What is the default username and password for the ProCurve Manager Management Server?

- A. username: Administrator; password: admin
- B. username: Administrator; password: value configured during installation
- C. username: Manager; password: value configured during installation
- D. username: Manager; password: password
- E. username: value configured during installation; password: value configured during installation

Answer: B
