Guarantee

Examsoon provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!.

Features

1. Comprehensive questions with complete details
2. Instant Downloadable in PDF form.
3. Verified Answers Researched by Industry Experts
4. Questions accompanied by exhibits
5. Drag and Drop questions as experienced in the Actual Exams.
6. These questions and answers are backed by our GUARANTEE.
7. Questions updated on regular basis.
8. Like actual certification exams our product is in multiple-choice questions (MCQs).

1. Click on the Exhibit button.

```
[edit firewall filter example]
User@Router#show
term count-traffic {
  from {
    source-address {
      10.10.0.0/16;
    }
  }
  then count valid-source;
}
term discard-traffic {
  then {
    discard;
  }
}
```

In the exhibit, what will be the result of a packet sourced from address 10.10.1.1 when the filter is applied?

- A.The packet will be counted and then accepted.
- B.The packet will be counted and then discarded.
- C.The packet will be accepted with no other action.
- D.The packet will be discarded with no other action.

Answer: A

2. You found a log message from your router as follows:

```
Aug 9 19:16:51 radon-re0 chassisd[2622]: CHASSISD_FRU_EVENT: scb_rcv_slot_attach: attached FPC
0
```

Which part of the message code indicates the process that generated the message?

- A.radon-re0
- B.chassisd[2622]
- C.CHASSISD_FRU_EVENT
- D.scb_rcv_slot_attach

Answer: B

3. Which statement is true about external BGP peering sessions?

- A.You must specify a ttl for each peering session.
- B.A peer-group must be defined as type external.
- C.A peer-as must be configured for each peering session.
- D.You must specify a local-address for each peering session.

Answer: C

4. What is the purpose of an ASBR summary LSA?

A.to reach networks that are outside of your area

B.to summarize all ASBR routes into a single route

C.to reach ASBR routers that are outside of your area

D.to reach ASBR routers in your area when used in a multi area OSPF network

Answer: C

5. Click on the Exhibit button.

Referring to the exhibit, which two statements are true? (Choose two.)

A.The service-set is applied directly to the interface.

B.A route pointing to the service interface must be present.

C.The "input" match direction for the service-set is from the FTP server towards the "Trusted" network.

D.The "input" match direction for the service-set is from the "Trusted" network towards the FTP server.

Answer: BD

6. You are examining the output of the stateful firewall session table.

Which state indicates that the router is using an application-layer gateway (ALG) to forward traffic?

A.NAT

B.ALG

C.Watch

D.Forward

Answer: C

7. You have enabled traceoptions for IKE using the configuration command `set services ipsec-vpn traceoptions flag ike`.

Which command will display the resulting IKE logs?

- A. `show log ike`
- B. `show log kmd`
- C. `show log messages`
- D. `show log ipsec-vpn`

Answer: B

8. Which two statements are true about scheduler maps? (Choose two.)

- A. A default scheduler map is applied to each interface.
- B. A scheduler map is only needed on low speed interfaces.
- C. A scheduler map is applied before a multifield firewall filter.
- D. A scheduler map controls the resources assigned to a specific queue.

Answer: AD

9. Which statement is true when configuring CoS?

- A. You define the transmit rate and buffer size in the scheduler map.
- B. Priority and transmission rate define how packets are stored and dropped.
- C. Buffer size and RED configuration define the priority and transmission rate.
- D. Buffer size and RED configuration define how packets are stored and dropped.

Answer: D

10. You have policy-statement `my-policy` configured at the

`[edit policy-options]` configuration hierarchy.

At which two configuration hierarchies could you reference this policy? (Choose two.)

- A. `[edit protocols bgp]`
- B. `[edit routing-options forwarding-table]`
- C. `[edit interfaces lo0 family inet filter]`

D.[edit services service-set my-service-set]

Answer: AB

11. Click the Exhibit button.

```
[edit]
lab@host# show interfaces
fe-0/0/1 {
  unit 0 {
    family inet {
      filter {
        input my-policy;
      }
    }
  }
}
```

In the exhibit, which configuration hierarchy may my-policy be defined?

A.[edit firewall]

B.[edit access-list]

C.[edit policy-options]

D.[edit services stateful-firewall]

Answer: A

12. You are at the [edit policy-options policy-statement my-policy term one] configuration hierarchy.

Which two commands are valid syntax? (Choose two.)

A.set from metric 2

B.set then term three

C.set then counter four

D.set from prefix-list five

Answer: AD

13. Click the Exhibit button.

```
User@Router# show protocols bgp
export customer-filter;
group ebgp {
  type external;
  export [ local-routes block-privates ];
  peer-as 100;
  neighbor 1.1.1.1 {
    export local-routes;
  }
}
```

In the exhibit, which export policy or policies will be applied to BGP neighbor 1.1.1.1?

- A.local-routes
- B.customer-filter
- C.local-routes and block-privates
- D.customer-filter, local-routes and block-privates

Answer: A

14. Click the Exhibit button.

```
[edit protocols bgp]
lab@host# show export
export [ one two ];

[edit policy-options]
lab@host# show
policy-statement one {
    term one {
        from protocol ospf;
        then next policy;
    }
    term two {
        from protocol static;
        then next term;
    }
    term three {
        then {
            metric 5;
        }
    }
}
policy-statement two {
    term one {
        then {
            metric 10;
            accept;
        }
    }
}
```

In the exhibit, which statement is true of a BGP-learned route to 10.1.0.0/24 that is evaluated against the BGP export policy chain?

- A. It is rejected.
- B. It is accepted and the metric is set to 5.
- C. It is accepted and the metric is set to 10.
- D. It is accepted and the metric is not modified.

Answer: C

15. Which statement is true when applying policies to BGP?

- A. Neighbor policies override group and global policies.
- B. Global policies override group and neighbor policies.
- C. A route must pass through all global, group, and neighbor policies before it can be accepted.
- D. You must apply a policy directly to a neighbor if you want to filter routes to or from that neighbor.

Answer: A

16. Click the Exhibit button.

```
term testing-1-2-3 {  
  from {  
    route-filter 10.0.0.0/16 orlonger accept;  
    route-filter 10.0.67.0/24 orlonger;  
    route-filter 10.0.0.0/8 orlonger reject;  
    route-filter 192.168.64/18 orlonger reject;  
    route-filter 192.168/16 longer accept;  
  }  
  then {  
    metric 10;  
    accept;  
  }  
}
```

In the exhibit, what would the result be when the prefix 10.0.67.43/32 is evaluated by the term?

- A.No match is found.
- B.The route would be rejected.
- C.The route would be accepted with no modifications.
- D.The route would be accepted with the metric set to 10.

Answer: D

17. Click on the Exhibit button.

```
term testing-1-2-3 {  
  from {  
    route-filter 10.0.0.0/16 orlonger accept;  
    route-filter 10.0.67.0/24 orlonger;  
    route-filter 10.0.0.0/8 orlonger reject;  
    route-filter 192.168.64/18 orlonger reject;  
    route-filter 192.168/16 longer accept;  
  }  
  then {  
    metric 10;  
    accept;  
  }  
}
```

In the exhibit, what would the result be when the prefix 192.168.192.0/18 is evaluated by the term?

- A.No match is found.
- B.The route would be rejected.
- C.The route would be accepted with no modifications.
- D.The route would be accepted with the metric set to 10.

Answer: C

18. Which three actions can be performed in a routing policy? (Choose three.)

- A. modifying action
- B. forwarding action
- C. terminating action
- D. flow control action
- E. redistributing action

Answer: ACD

19. Which statement is true about route-filters and prefix-lists?

- A. Prefix-lists are defined within a routing policy.
- B. Route-filters are defined within a routing policy.
- C. All routes in a route-filter are evaluated sequentially.
- D. All prefixes in a prefix-list are evaluated sequentially.

Answer: B

20. Click the Exhibit button.

```
User@Router> test policy example 192.168.20/24
inet.0: 11 destinations, 11 routes (11 active, 0 holddown, 0 hidden)
+ - Active Route, - - Last Active, * - Both
192.168.20.0/24 * [OSPF/10] 5d 05:19:48, metric 1
                > to 10.0.21.1 via fe-0/0/2.100
Policy example: 1 prefix accepted, 0 prefix rejected
```

In the exhibit, you have an external BGP neighbor that is not receiving the route 192.168.20.0/24 in your BGP updates. You have applied the policy "example" as an export policy to your BGP neighbor. You ran the "test policy" command on the prefix and received the results in the exhibit.

Which statement would explain why the route is not being sent to your BGP neighbor?

- A. The prefix 192.168.20.0/24 was rejected by a term in the example policy.
- B. The prefix 192.168.20.0/24 was accepted by a term in the example policy.
- C. Policy example should be applied as an import policy, not an export policy.
- D. The prefix 192.168.20.0/24 was not accepted or rejected by any terms in the example policy.

Answer: D

Examsoon.com was founded in 2006. The safer,easier way to help you pass any IT Certification exams . We provide high quality IT Certification exams practice questions and answers(Q&A). Especially [Adobe](#), [Apple](#), [Citrix](#), [Comptia](#), [EMC](#), [HP](#), [Juniper](#), [LPI](#), [Nortel](#), [Oracle](#), [SUN](#), [Vmware](#) and so on. And help you pass any IT Certification exams at the first try.

we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

You can reach us at any of the email addresses listed below.
