1. The user name that creates the original DB2 database must be a member of which of the following groups?

- A. SYSADM
- B. MANAGERS
- C. DB2ADMIN
- D. ADMINISTRATORS

**Answer: A**

2. While configuring an Internet Site document, Kira has left the option blank for which Domino server hosts the site. What is the default action the server will perform with this option not configured?

- A. The Internet Site will not be loaded on any Domino server
- B. The Internet Site will be loaded on all Domino servers in the domain
- C. The Internet Site will only accept connections for the first IP Address on the server
- D. The Internet Site will only accept connections for the hostname in the server document

**Answer: A**

3. Domino uses which of the following to determine the best, least-cost path to deliver mail?

- A. The routing table
- B. The MAPS server task
- C. The SMTP updater task
- D. The certification view in the Domino directory

**Answer: A**

4. Which server console command adds or changes a setting in the NOTES.INI file?

- A. Load update
- B. Enter change
- C. Set Configuration
- D. Update notes variable

**Answer: C**

5. When a recipient's mail file is not on the local server, but is in the Domino domain, Domino calculates how to route the message to the recipient's server and whether to use SMTP or Notes routing (NRPC). What is the next determination of how the message is routed?

- A. If the user's mailfile is running the same Domino version as the sender determines how the message is routed
- B. The configuration of the local server and the message format determine how Domino moves the message to the server
- C. If the local server can send SMTP within the local Internet domain and the home mail server can receive SMTP, the Router uses SMTP to send the message
- D. The configuration of the SMTP task to allow relays on the destination server is read from the Domino Directory. If relays are allowed the message is sent NRPC

**Answer: B**

6. SMTP stands for which of the following?

- A. Simple Mail Transport Protocol
- B. Simple Mail Transfer Protocol
- C. Standard Mail Transfer Protocol
- D. Standard MailTransport Protocol

**Answer: B**
