Guarantee

Examsoon provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!.

Features

1. Comprehensive questions with complete details
2. Instant Downloadable in PDF form.
3. Verified Answers Researched by Industry Experts
4. Questions accompanied by exhibits
5. Drag and Drop questions as experienced in the Actual Exams.
6. These questions and answers are backed by our GUARANTEE.
7. Questions updated on regular basis.
8. Like actual certification exams our product is in multiple-choice questions (MCQs).

1. Which network topology best describes how EMC Centera nodes are networked together?

- A. Bus
- B. Mesh
- C. Ring
- D. Star

Answer: D

2. How many leading bits are used to determine the class of an Internet address?

- A. 3
- B. 4
- C. 8
- D. 16

Answer: C

3. In the OSI model, which layer would a router be defined in?

- A. Data link
- B. Network
- C. Network interface
- D. Transport

Answer: B

4. Which layer of the OSI model does FTP use?

- A. Application
- B. Data link
- C. Network
- D. Transport

Answer: A

5. What are four layers in the ARPA (TCP/IP) architecture?

- A. Application, session, transport, and physical
- B. Application, transport, network, and network interface
- C. Presentation, network, data link, and network interface
- D. Presentation, transport, data link, and physical

Answer: B

6. Which port number is used to communicate to an SMTP server?

- A. 20 or 21
- B. 22
- C. 25
- D. 321

Answer: C

7. Which EMC Centera security model conforms to Securities and Exchange Commission regulations?

- A. Basic
- B. CE+
- C. CPP
- D. Governance Edition

Answer: B

8. Your customer wants to automatically archive files from his EMC Celerra to EMC Centera. Which additional hardware is required?

- A. CUA using CIFS
- B. CUA using NFS
- C. None. The Celerra API is integrated with EMC Centera
- D. Rainfinity FMA

Answer: D

9. Which two objects are stored as a single BLOB?

- A. Two documents containing the same data
- B. Two JPG pictures written at the same time
- C. Two MP3 songs of the same size
- D. Two X-Rays with the same filename

Answer: A

10. How does an application locate objects on an EMC Centera?

- A. By the object's filename
- B. Keeps a copy of each C-Clip ID
- C. Keeps a copy of every BLOB's CA
- D. Searches each storage node sequentially

Answer: B

11. What is CAS?

- A. Archived storage accessed by filename
- B. High-performance transactional data storage
- C. Multiprotocol access storage
- D. Storage of fixed content data

Answer: D

12. Your customer wants to implement a disaster recovery solution involving a second EMC Centera at a remote location.

How could this be easily accomplished using EMC Centera features?

- A. Back up the primary EMC Centera to tape and restore to EMC Centera at the remote site
- B. Configure bidirectional replication between both EMC Centeras
- C. Configure the application to write the same data to both EMC Centeras
- D. Configure virtual pools and access profiles on both EMC Centeras

Answer: B

13. Which targets does EmailXtender natively archive to?

- A. EMC Centera
- B. Network-attached storage
- C. NTFS disks
- D. Optical libraries

Answer: C

14. What allows EmailXtender to archive to EMC Centera?

- A. CUA
- B. DiskXtender for Windows
- C. EmailXtract
- D. Multiple Access Nodes

Answer: B

15. In EmailXtender, what are container files?

- A. Archived mail header information
- B. Encrypted files holding mail by file size
- C. Files that are compressed at 10:1
- D. Monthly archived message files

Answer: D

16. Which component of EMC DiskXtender for Windows is responsible for moving data to extended storage?

- A. Administrative
- B. EmailXtender
- C. File System Manager
- D. MediaStor

Answer: C

17. What does the purge function in DiskExtender accomplish?

- A. Permanently deletes files from an extended drive
- B. Reclaims space from deleted files
- C. Removes file data from extended drives and leaves a file tag
- D. Removes files from media

Answer: C

18. How many targets can DiskXtender for Windows manage?

- A. 2
- B. 4
- C. 8
- D. 16

Answer: B

19. What are the hardware components in a Gen4 cube?

- 1. Two internal Lan-48 port cube switches
 - 2. Front-pluggable drive
 - 3. Configuration with 8, 16, 24, or 32 nodes
 - 4. Configuration with 4, 8, 12, or 16 nodes
 - 5. Two internal Network Cube Switches (NCS)
- A. 1, 2, and 3
 - B. 2, 3, and 5
 - C. 1, 2, and 4
 - D. 2, 4, and 5

Answer: D

20. What is the minimum recommended number of nodes that can be configured with the access role in a Gen4 cube?

- A. 1
- B. 2
- C. 3
- D. 4

Answer: B

Examsoon.com was founded in 2006. The safer,easier way to help you pass any IT Certification exams . We provide high quality IT Certification exams practice questions and answers(Q&A). Especially [Adobe](#), [Apple](#), [Citrix](#), [Comptia](#), [EMC](#), [HP](#), [Juniper](#), [LPI](#), [Nortel](#), [Oracle](#), [SUN](#), [Vmware](#) and so on. And help you pass any IT Certification exams at the first try.

we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!
